CONNECTING TO POWER

After connecting all your devices, connect the power cord to a power outlet. The TV enters standby mode and its indicator light turns red.

Setup

ACTIVATION:

Have your wireless network name and password handy.

Follow the on-screen instructions on your onn Roku TV. If you aren't ready to connect your TV to a wireless network, you can still use it as a regular TV.

Activate your onn Roku TV using your computer, smartphone, or tablet to link to a Roku account. You need a Roku account to activate your onn Roku TV and access entertainment across thousands of streaming channels.

NOTE:

Roku doesn't charge for activation support – **beware of scams.**

PAIRING THE REMOTE:

1. Power your TV remote by inserting the included batteries carefully matching (+) and (-) indicated inside the battery compartment. The TV is now in pairing mode automatically.
2. If the TV does not automatically enter pairing mode, press and hold the Home and Back buttons on your remote for 5 seconds or until the light starts flashing.
3. Wait up to 30 seconds while your onn Roku TV connects with the remote. Once paired, a message will appear, "Remote paired successfully."
